

HAPPY CLINICIAN

Meet Hannah

@aesthetics.by.hannah.x

The HAPPY INJECTORS CLUB is all about the amazing clinicians that choose to join the club, train with me and are happy to share their experience with others.

EVERY MONTH I WILL BE SHINING A SPOT LIGHT ON A SUPER HAPPY MEMBER TO HELP INSPIRE YOU ON YOUR JOURNEY.

HI HANNAH, WHAT'S YOUR BACKGROUND ROLE?

Nursing - mainly in surgical nursing for the last 13 years!

HOW LONG HAVE YOU BEEN IN AESTHETICS?

I started in aesthetics in 2021.

WHAT'S YOUR CURRENT JOB MIX?

I work two days per week in the NHS in the urology clinic and two days doing aesthetics from my home clinic.

WHAT'S YOUR FAVOURITE PART OR TREATMENT IN AESTHETICS AND WHY?

Do I have to choose?! I love toxin because the areas we can treat are so interesting and the results can make such a difference to my patients.

WHY DID YOU GO INTO AESTHETICS?

I was walking home from the Doctors one day and I had a sudden thought that it would be good to have a look into it and use it as a side business.

My nanna had just passed away and she left me some money, she would have loved everything about it, she was so glamorous!

I have always loved skin and skin health. Going into it was nerve-wracking because looking back I don't think I truly understood what was involved but after more research I knew it was something I needed to explore and try.

After my first few treatments, seeing the happiness and confidence the aesthetic treatments bring to my patients, I knew it was the right thing for me. I absolutely love it!

WHERE DO YOU SEE YOUR AESTHETICS CAREER IN 5 YEARS TIME?

I want to grow my knowledge and build on the services I offer. I offer a wide variety of services but gaining a Level 7 diploma is my plan for the new year.

I am looking to move from my home clinic which I am rapidly growing out of. Hopefully I will soon have my own clinic space that I am proud of.

I would love to have a CQC registered clinic so hopefully that will be at the end of the 5 year plan.

I am not looking to take over the aesthetics world, I enjoy my NHS role and I am happy with my NHS/aesthetics/home balance. This is something I have struggled to get so now I have it right, I hope to keep it that way.

WHAT HAS BEEN YOUR BIGGEST SUCCESS/ACHIEVEMENT SO FAR?

My prescribing qualification. I took a big step in doing this as I did it along side working nights on a surgical ward, my children were still young and I was trying to juggle work, children, aesthetics and the course. On top of that the pressure was on to pass it because I was self funding. I also had not done any sort of studying in 11 years so a Level 7 was a HUGE deal for me...! Thankfully I passed and it changed my practice for the better.

WHAT'S YOUR BEST PIECE OF ADVICE?

Sorry more than one but here goes...

- 1) Understand anatomy inside and out.
- 2) Expect to build very slowly and don't worry about this.
- 3) Social media isn't everything.
- 4) Don't look at other practitioners.
- 5) Focus on making the services you offer great. Don't think you have to offer every service to be a good practitioner.

WHAT TRAINING COURSES HAVE YOU DONE WITH HAPPY INJECTORS CLUB?

I have done the advanced toxin course and it was incredible. The after support has been brilliant.

HOW HAS THIS TRAINING IMPACTED YOUR BUSINESS?

As my business has grown along with my confidence I have been able to offer advanced toxin to those patients who need it. I have been able to identify through facial assessment and these patients have appreciated my expertise. This in turn I feel has made me a more trusted and reputable practitioner.

FINALLY...

**WHAT DOES BEING PART OF HAPPY INJECTORS CLUB
MEAN TO YOU?**

I love being part of this group, if I don't know something I ask for advice without the worry of feeling judgement or imposter syndrome.

I actually lurk and learn a lot from other members. The group is essential for me as this can be a lonely industry.

I enjoy the zooms because they cover such a variety of subjects.
